** The EEC specification refers in each case to the installed LED light source(s)

🇮🇹 Sistemi decorativi a LED

- Minispot 12V/DC, 20mA - Luce bianca (a richiesta, con luce blu)
- Fornito con cavi 25cm per connessioni multiple sugli speciali morsetti rapidi polarizzati
- Alta resa luminosa - Consumo 0,24W per spot.
- Alimentazione 12V da batteria o alimentatore stabilizzato a tensione costante

🇬🇧 LED Decorative systems

- Minispot 12V/DC, 20mA - White light (available in blue)
- Supplied with 25cm cables for multiple connection to specially polarized
- High light efficiency - Consumption of 0,24W for every spot.
- Alimentazione 12V da batteria o alimentatore stabilizzato a tensione costante
