

Schema di collegamento , ingresso 24V max 200Hz PWM
 Uscita 350mA max 6 Led per canale minimo 1 Led

VDC 1 V range
 0,1V = 100 mA

1 ohm 1/2 W resistor

Warning : switch off main voltage when connect or disconnect the resistor and the LEDs.
 Wait 10 minutes before test the current (warm up - time)
 The value must be 350mA 10% (320...385mA)
